COURSE CONTENT AND PURPOSE

This course will provide the study of techniques leading to the mastery of a keyboard instrument, including physical techniques, practice methods, repertoires, styles and their interpretations, comfort in performance settings, improvisation, and the integration of appropriate concepts from music theory and history. All keyboard students will be exposed to comprehensive solo and chamber music repertory from various cultures of the world in the applied lessons; the studio classes; guest artist, faculty, and student recitals; and master classes.

This course will lead students to music fundamentals, help them how to express music through the knowledge, and prepare them to play their instruments at a level appropriate to a variety of settings such as education, solo performance, and performance in small and large ensembles. In addition, through the reinforcement of techniques, music major students will be able to prepare for the piano proficiency exam and the placement test at 4-year universities.

EXPECTED LEARNING OUTCOMES

Upon completion of this course, students should be able to:

- Learn fundamentals of piano learning such as posture and hand alignment, the geography of the keyboard, intervals, fingering, articulations, rhythms, the balance of melody and accompaniment, velocity, and pedaling.

- Obtain keyboard skills in Major/minor white key 5-finger patterns, scales, triads, chord cadences (I IV V V7), and arpeggios in various keys.
- Demonstrate a variety of practice techniques, leading to an ability to perform with competence on their instrument.
- Improve sight-reading, memorization, and confidence in a live performance setting and demonstrate knowledge of the repertoire regularly performed on their instrument.
- Practice technical studies not only to enhance comprehension and enjoyment of playing the piano but also to prepare the piano proficiency exam for music majors.
- Integrate music theory and history into their performance preparation.

METHODS FOR ASSESSING EXPECTED LEARNING OUTCOMES

The expected learning outcomes will be assessed through the:

Class preparation, in-class performances, quizzes, exams, and final recital
